

# DOCK SHELTERS

## PVC retractable versions: Transporel

Retractable dock shelters with side self-extinguishing PVC curtain and front panels in double frame pvc for an innovatively strong structure, EASIER TO MOUNT AND ASSEMBLE (see user manual) thanks to side curves for easy side pvc inserting in rails. Available also in SGH ground version. The new COMBO semi-assembled version ensures easier and cheaper transportation

### TECHNICAL DETAILS

NOMINAL WIDTH*	X: 3460 mm
NOMINAL HEIGHT*	Y: 3400/4500 mm
DEPTH	Z: 600/900 mm
UPPER FRONT PANEL	Double frame PVC, black colour, 3mm thick, H1000mm
SIDE FRONT PANELS	Double frame PVC, black colour, 3mm thick, W600mm
SIDE CURTAIN	Anti-scratch self-extinguishing 650gr/m2 PVC, yellow colour
INSTALLATION	Aluminium extruded profile with joint cover to hide fixing screws  SEMI-ASSEMBLED COMBO FRAME WITH FRAME AXLES SPLIT IN TWO AND INTERMEDIATE JOINTS
ACCESSORIES	Extendable curtain Drainage gutter on top

The frame is engineered for easy mounting, thanks to special extrusion with housing part for side curtain sliding.

The aluminum profile has top curves to allow easy sliding and major scratch resistance of side curtain.
