

CargoMaster C400

The specialist to transport heavy vending machines

With the CargoMaster it is possible to transport loads up to 400 kg singel-handedly, which makes it your reliable partner. It does not matter whether the load has to be transported upstairs, downstairs or on level ground. Even the loading and unloading of goods into vehicles or onto shelves is possible without great effort, due to the attached lift.

The center of gravity of the load can be adjusted optimally by lifting or lowering the fork, which is electrically adjustable. This facilitates going upstairs or downstairs as well as pushing on level ground dramatically.

Advantages that convince

- Safe transportation of heavy goods up to 400 kg
- Integrated lift to load and unload easily
- Electrically adjustable loading fork to adjust the center of gravity

Intelligent Accessories —

For all situations of transportation

The climbing mechanism of the C400 provides a safe transport of goods on virtually all stairs inside and outside. The safety brakes stop automatically at each edge of a step.

The battery pack, which can be charged via the charger, provides electricity. One battery charge is sufficient for 8 – 15 floors, depending on the load.

The delivery package of the C400 includes the C400 with attached lift, a lashing strap, battery pack and the charger. Special accessories make the C400 an ideal partner in virtually all situations of transportation.

Item number		C400

	Extended support	100325	100326	100522
Heavy duty auxiliary stairs	Extended support	104089	104004	104118

Adjustable grips

Support for round containers

Auxiliary stairs made of steel for a load up to 350 kg or the heavy duty auxiliary stairs up to 500 kg

Thanks to these stairs you can comfortably load and unload your transporter, trailer, or transportation vehicle. Boot sills between 480mm – 900mm in height are possible. If your vehicle has a tow-bar you need the auxiliary stairs with an extended support.
