

FLEXI NARROW AISLE

Flexi HiMAX AC

Lift heights to 13m

Engineered for high lift capability

1250mm or 1350mm wide chassis, plus special rear tyres, delivers excellent load rating and stability.

Heavy duty fixed mast

Heavy duty mast sections fixed in a double deck front frame give maximum load stability.

High quality tilting carriage

Integrated tilting and side shifting fork carriage developed to eliminate mast deflection at high lifts.

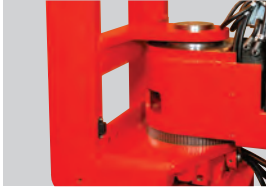

High definition LCD CCTV system

Allows operator to stack safely to 13 metres with minimum fatigue.

For Hi Bay warehouses needing fast throughput capability and very narrow aisle storage density, Flexi HiMAX AC provides the perfect solutions.

HEAVY DUTY ARTICULATION UNIT

Developed to allow precision stacking to over 12 metres.

TRUE RADIUS® CHASSIS

The compact chassis option allows higher lifts and heavier loads without the need for extended wheel arches.

CUSHION TYRES

Cushion tyres allow operation on standard warehouse floors. Low point loadings compared to guided VNA trucks.

DOUBLE DEEP OPTION

Telescopic double deep fork version provides extra 50% storage capacity over reach trucks for true bulk store operations.

INTEGRAL TILTING AND SIDE SHIFTING FORKS

Full forward and back fork tilt facility at full lift height, with minimum lift mast deflection for fast operation.

FIXED "CLEAR VISION" MAST

Operators have excellent forward visibility thanks to the triplex free lift mast, with its twin side mounted lift cylinders. Safe forward pallet pick up and set down.

HIGH DEFINITION LCD CCTV

Allows operator to stack up to 13 metres safely and productively.

HIGH-BACK SEAT

Optional fully adjustable high-back seat with arm rests can reduce fatigue and improve productivity.

EASY BATTERY CHANGE

Low rear lift off or roll off for fast changeovers. Good access for battery topping. No motors hidden underneath.
