

# CASTELLANA *MAXI*

## Heavy Duty Warehouse Steps

Welded ribbed aluminium folding ladder with platform, Guardrail and Handrail for professional use. This professional heavy duty is ideally suited for use in warehouses, stock rooms, high access points with machinery, airports, gymnasiums and other areas where safe, guarded high level access is required. Featuring wide steps, a sturdy 1.0m guardrail and a large aluminium working platform permit the user to work in a comfortable, safe way & this product therefore meets all needs for Work at Height. Featuring a safe braking system deployed automatically when the ladder is opened for use, but allowing transit when the ladder is moved with the raising arms, the rubber feet allow the two sturdy rubber wheels (ø 125 mm) to move effortlessly on the ground. It is additionally equipped with anti-opening anti-closing arms that can also be used as raising arms.

The front of this ladder is wide and easy to climb and it's strongly inclined (55°), so that climbing becomes easier thanks to both the non-skidding reinforced steps 20 cm wide with a distance of only 23 cm one from the other, and to the large, comfortable handrail. The back part of the ladder is perpendicular to the ground, allowing the user to approach a wall or a scaffold frontally.

### Technical features

- Steps are 20 cm wide
- Capacity: 150 kg (one person included)
- Profiles dimensions: 200 x 30 mm
- Distance between steps: 23 cm
- Guardrail height: 100 cm
- Toeboard height: 15 cm
- Larger platform: 53 x 92 cm
- Inner front width: 60 cm
- Inclination of the front part: 55°
- Diameter of the wheels: 125 mm

**GUARANTEE  
5 YEARS**

Base reinforced with ergonomic feet - Quality braking system
