

MULTILADY

Multi-purpose aluminium ladder

It is excellent for professional and DIY use, having different working configurations. Equipped with work bench in patented aluminium (30x148 cm), it is adjustable, reaching different heights, and can be used on stairs thanks to the telescopic device. It can also be used as a straight ladder and as a stepladder. It is equipped with quick positioning automatic steel hinges, nylon and steel hooks, detachable base stabilisers (nylon reinforcement inside the stabiliser seat). Very compact, it can be transported inside standard car boots.

Thermo-shrinkable package with showcard, labels and instructions manual.

Easy positioning
