

# AERIAL WORK PLATFORMS

## CUSTOMERS FIRST. ALWAYS.

### PARTNERING FOR SUCCESS

Our dedication to lifting you higher extends well beyond the physical reach of our products. We thrive on building satisfying customer relationships founded on the idea of partnership. Because you, our customer, are at the center of everything we do.

Since 1966, we've been developing products to solve your worksite challenges — and that process never ends. Our team of product managers and engineers uses your input to design new products, featuring the latest technology to meet your changing needs. Then we manufacture those products to stringent standards that help increase quality, lower costs and give you exceptional value for years to come.

### PROVIDING SUPERIOR VALUE

Our commitment doesn't end with the sale. Our dedicated service teams are available 24 hours a day, 365 days a year to provide support when you need it most. Our extensive parts network ships most parts within 24 hours, too. Simply put, we're always working to help maximize your "up time" so you can be more successful.

Genie is driven by one goal: doing the right thing, at the right time for our customers. That's not just what we do; it's who we are. So tell us what you need. We're listening.

**Genie**  
A TEREX COMPANY

### SETTING THE STANDARD

Genie manufactures some of the most advanced, highest-valued lift equipment in the industry. Genie distinctive blue lifts set the standard for performance and durability — not to mention support from people who understand your business.

# CONVENIENCE

## IN A COST-EFFECTIVE PACKAGE

Genie® aerial work platforms are easy to use and cost effective, making them the first choice for a wide range of applications. One person can easily set them up and get to work within minutes, providing the ideal all-around tool for almost any access application. Their light weight and compact size make Genie® aerial work platforms convenient to use in schools, churches, warehouses and more. Genie® aerial work platforms also provide solutions for internal work on large construction sites, like high rises, as well as being perfect for light-duty construction purposes.

Genie® aerial work platforms are designed to enhance productivity in the workplace. Flexible features on the AWP™, IWP™, DPL™ and Runabout™ models offer convenience at a low cost. Their lightweight construction makes them easy to maneuver, use and transport, delivering maximum uptime. Each model offers a variety of options and accessories to customize your machine. Genie® aerial work platforms offer an economical solution for all your access needs.

**Genie's patented mast system is the most rigid in the industry.**

# CONVENIENT, **VERSATILE ACCESS**

Genie® AWP™ Super Series aerial work platforms are an industry favorite due to their ease of use, convenience and flexibility. Their lightweight maneuverability and durable design make them a versatile option for a wide variety of rental, light-duty construction and maintenance applications.

## **EASY TRANSPORT**

The unique rear mast pivot bar and lightweight design allow it to be easily loaded into a pickup truck. Outrigger storage and forklift pockets, tie-down attachment points and an overhead crane attachment point add transportation convenience.

**The Genie® AWP™ Super Series is the top-selling aerial work platform in North America.**

### DURABLE MAST AND PLATFORM

Genie's patented mast system is the most rigid in the industry. Constructed of durable aircraft-quality aluminum, the mast provides user comfort and security at all working heights. Units have a ground fault interrupt receptacle on the platform for convenient use of power tools. (ANSI/CSA only).

### DOORWAY ACCESS AND MANEUVERABILITY

All units roll through standard doorways for easy access, and models up to 30 ft (9.1 m) don't even need to be tilted back. An exclusive six-point wheel and caster rocker base system also maneuvers easily around corners and over thresholds or debris.

# A BASE TO FIT YOUR NEEDS

Choose from three bases (standard, narrow or rough terrain) and six different platform options for the exact lift that meets your access needs.

## STANDARD BASE

Genie's most popular model, perfect for everyday applications.

## NARROW BASE

Tight spaces are accessed with ease, for a variety of unique applications.

## CLOSE ACCESS

The compact X-pattern outrigger footprint is the smallest in the industry, allowing access as close as 3 in (8 cm) from walls. With proximity like that, you'll be within easy arm's reach of your job. Simple setup and 6 to 46 ft (2 to 14 m) of working height make the AWP™ Super Series the ideal choice for applications requiring close access.

**The versatility of the AWP™ Super Series provides multiple worksite solutions.**

## ROUGH TERRAIN BASE

Ideal for use on unfinished surfaces.

## USER-FRIENDLY CONTROLS

Controls include a low battery indicator, locking key switch and dual-activated up/down switch as well as outrigger setup confirmation lights. All AC and DC models are equipped with an auxiliary platform-lowering feature for descent in the event of a power failure.

## AERIAL WORK PLATFORM MODELS AVAILABLE

AWP™-20S

AWP™-25S

AWP™-30S

AWP™-36S

AWP™-40S

# STABILITY AND RELIABILITY

Genie® IWP™ Super Series lifts can be easily moved around your worksite and set up in seconds. In addition, all AC and DC models are equipped with an auxiliary platform-lowering feature on both platform and ground controls, enabling descent in the event of a power failure. Reaching heights of 35 ft 6 in (11 m), the easy-to-use IWP™ comes in two base models (standard and wide) with six different platform options to meet your specific application requirements.

## USER-FRIENDLY PLATFORM AND CONTROLS

Control features include a low battery indicator, locking key switch, a dual-activated up/down switch and proper setup confirmation. Select units have a ground fault interrupt receptacle on the platform for convenient use of power tools.

**Effortless setup in seconds quickly gets you working at heights of up to 35 ft 6 in (11 m).**

### OUTREACH OPTION

Provides over 2 ft (61 cm) of additional horizontal reach (IWP™-20S only).  
Ideal for maneuvering up and over shelves, machinery and equipment.

### EXCEPTIONAL STABILITY

Rigid aluminum mast provides user comfort and security, and features heavy-duty lifting chains for strength and reliability. Units also feature built-in automatic level sensing. Two front integral leveling jacks provide an additional 2 in (5 cm) of adjustability.

### DOORWAY ACCESS

The standard base model easily rolls through standard doorways. Wide base models roll through typical industrial double doorways.

## INDUSTRIAL WORK PLATFORM MODELS AVAILABLE

IWP™-20S

IWP™-25S

IWP™-30S

# CONVENIENCE AND VALUE

The Genie® DPL™ Super Series is a cost-effective two-worker option. These versatile machines combine tight access maneuverability with ample space for two workers and their tools on the larger platform. They also offer exceptional stability with a patented aluminum mast system, heavy-duty lifting chains and a welded steel base that stands up to tough jobsite conditions. Bottom line, they're the ideal choice for big jobs in small spaces.

## EASY-TO-USE CONTROLS

Ground controls feature outrigger setup confirmation lights, low-battery indicator (DC models), and locking key switch. Dual-activated platform controls are easy to operate. Auxiliary platform lowering (from ground or platform) allows descent in the event of a power failure.

**This low-cost option lifts two workers and their tools up to 40 ft 10 in (12.62 m).**

### DOORWAY ACCESS

The DPL™ rolls through standard doorways, and a convenient handle provides easy steering and maneuverability. The 4-position, non-marking swivel lock casters allow 360° rotation in areas as small as 7 ft 4 in x 2 ft 7 in (2.24 m x .79 m).

### SMOOTH, EFFICIENT POWER

AC (110 V or 220 V) and DC (12 V) power options are available — delivering clean, quiet operation for indoor or outdoor use. A platform-mounted GFCI 110 V electrical outlet is standard on all models.

### EASY STORAGE AND TRANSPORT

Outrigger storage sockets, multidirectional forklift pockets and sturdy tie-down attachment points help you secure the machine for easy transport. Winch attachment points let you easily winch the DPL™ on and off roll-back trucks.

### DUAL PERSONNEL LIFT MODELS AVAILABLE

DPL™-25S

DPL™-30S

DPL™-35S

# PRODUCTIVE SOLUTIONS

The Genie® Runabout™ (GR™) is a compact, low-weight machine that's well suited for increasing productivity on the job. The efficient operation and convenient setup of the Runabout™ make it ideal for warehousing, stock-picking, transporting, inventory management, general maintenance and construction.

## DRIVING AND STEERING

Features include zero inside turning radius, 30% gradeability, a spring-applied hydraulically released brake system and 10 in (25 cm) non-marking solid rubber tires. The unit is also driveable when fully elevated for increased productivity.

## EASY CONTROL AND SERVICE

Platform controls are equipped with on-board diagnostics. Auxiliary platform lowering enables descent in the event of a power failure. Proportional lift and drive controls provide a smooth ride. Plus, hinged rear covers allow easy access to all major components for convenient servicing.

**A zero inside turning radius and full elevation drive feature deliver maximum productivity.**

### ADJUSTABLE WORKSTATION TRAY

All Stock Picker™ models come standard with a workstation tray that is adjustable from inside the platform.

### COMPACT ACCESSIBILITY

Narrow 2 ft 5.5 in to 2 ft 7.5 in (75 to 80 cm) width and 4 ft 5 in (1.35 m) length allows the unit to fit in most passenger elevators. Unit can be driven through doorways with operator on board and has 2.5 in (6 cm) ground clearance in stowed position. Low 15 in (38 cm) entry height.

### GENIE® RUNABOUT™ MODELS AVAILABLE

GR™-12

GR™-15

GR™-20

# A PLATFORM FOR EVERY JOB

Choose from a variety of sizes, shapes and materials to create just the right lift solution for your specific application needs.

## AWP™, IWP™ AND RUNABOUT™ PLATFORM OPTIONS

### STANDARD PLATFORM WITH SLIDING MIDRAIL

27 x 26 in (69 x 66 cm)  
An excellent general-purpose platform.

### GATED STANDARD PLATFORM

27 x 26 in (69 x 66 cm)  
Provides "step in" entry.

### GATED ULTRA-NARROW PLATFORM

22 x 18 in (56 x 46 cm)  
The narrowest available.

### GATED NARROW PLATFORM

26 x 20 in (66 x 51 cm)  
For access through standard ceiling tile and other small openings.

The narrow platform option is perfect for accessing the space above ceiling tiles.

\* FIBERGLASS PLATFORMS DO NOT PROVIDE PROTECTION FROM ELECTRIC SHOCK.

**STANDARD FIBERGLASS PLATFORM\***

29 x 26.5 in (74 x 67 cm)  
A general-purpose fiberglass platform designed for containing tools and materials.

**NARROW FIBERGLASS PLATFORM\***

26 x 22 in (66 x 56 cm)  
The smallest fiberglass platform available; also an excellent containment option.

**EXCLUSIVE RUNABOUT™ PLATFORM OPTIONS**

**STOCK PICKER™ PLATFORM**

35 x 28.5 in (89 x 73 cm)  
Offers dual side entry gates and adjustable tray.

**SLIDING MID-RAIL EXTENSION DECK PLATFORM**

55 x 29.5 in (140 x 75 cm)  
Provides 20 in (51 cm) of horizontal outreach and a larger work area within the platform.

## FOR AERIAL WORK PLATFORMS

### THE GENIE® SUPER-STRADDLE™

Work over fixed seating in places such as auditoriums, convention centers and manufacturing or maintenance facilities. Easy to assemble, the Super Straddle™ provides up to 4 ft (1.22 m) of vertical clearance. End frames adjust for leveling on floors with slopes up to 6°. Outriggers must be in place to operate. (AWP™ Super Series only)

### TILT-BACK OPTION

A tilt-back frame allows select AWP™ Super Series models to roll through standard doorways. (standard on AWP™-36 and AWP™-40)

### STOCK PICKER™ BIKE RACK

A convenient way to lift bicycles up to or down from high displays or warehouse shelving — no need for the operator to lift, maneuver or hold the bicycle in the platform.

### STOCK PICKER™ REAR PARCEL TRAY

The optional rear parcel tray available on the GR™-12 and GR™-15 gives the operator additional workspace for items such as a toolbox and light tools, and will hold up to 150 lbs (68 kg).
