SHERPA CARGO N 921 - Hand truck with power stair climber

SHERPA[®]CARGO N921

Hand truck with power stair climber

technology in motion...
...the evolution continues

SHERPA CARGO N921 is a “new generation” hand truck built with innovative technology and control systems. Thanks to its intricate design, advanced manufacturing techniques and rigorous controls, this device delivers maximum safety and performance, smooth operation, extraordinary autonomy and effortless manoeuvrability.

SHERPA CARGO N 921 - Hand truck with power stair climber

SHERPA CARGO N 921 is a mobile tracked device designed to move loads up and down stairs easily and safely, reducing the operator's effort to a minimum. Indicated for moving solid loads on various floors inside buildings. The fold up nose plate makes the machine extremely compact, for space-saving storage when not in use.

The handle height can be adjusted based on the load to be transported.

Emergency button

Dual control operation on the removable handle

Joystick control on the fixed handle

Removable and rechargeable battery

Dock for removable battery

Ignition key and panel with battery charge display
