

The versatile stair climber

Safe and comfortable even on narrowest stairs

s-max
sella

Frequently buildings have neither been designed nor built in such a way that they are accessible for handicapped people. In those cases stairs represent a great barrier for many people and need to be overcome.

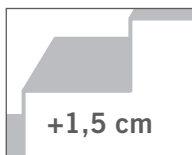

With the stair climber s-max sella you solve this problem effortlessly and elegantly. This device makes you mobile everywhere and at all times.

This stair climber is applicable on virtually all types of stairs, inside as well as outside. It is particularly manoeuvrable and comfortable since the seat is already integrated in the s-max.

For transportation you can fold up or disassemble the s-max sella easily.

Accessories for the s-max sella

Increase of climbing height

Inclination indicator

Seat belt system including hip belt

Hip belt
